Scuba diving places

On the map we can see the places along the coast, from "rodadero" to the end of Tayrona Park, and the different places for scuba diving practice In Tayrona Park there are many wonderful places to do scuba diving, where you will find a variety of flora, corals y fauna.

The visibility in these Caribbean waters is really good most of the year, and even when there are places of hard access, it's worthy to visit them. We have a variety of depths for open water scuba divers and deep and night dives for advance ones. These places are in between 30 and 120 feet of depth.

These are some of the scuba diving places

Aguja Island, excellent for certified scuba divers or beginners accompanied by a guide.

Aerial view of "Cinto" and "Nenguange".

"El morro" (small barren island in front of Santa Marta bay).
